

Class 1 Week by Week - Spring 2019

Week 3

We have started our topic of Winter Season just as the cold snap has arrived! The children have been excited to find frosty grass and chunks of ice on our winter walk. Reception have even had a go at making frost angels.

Y1 have been finding out about how ice is formed when the temperature drops to 0 C.

They also noticed that the warmth of the sun can make the frost on the grass melt back into water. We didn't see many animals which made us wonder where they have gone.

Class 1 have been looking at photo's of winter skies and noticing the amazing colours. Please can you look out for this in the mornings and evenings so that they can see it all for real. We are making a winter tree picture with the sky colours in the background.

Next Week:

We will be doing PE outside on Fridays - weather permitting. Please can all children bring outdoor trainers and leggings/tracksuit bottoms to keep them warm and protected.

STOP PRESS - STOP PRESS

From next week these Week by Week newsletters will be on the school website and Facebook pages. This will

help us to save paper/ink - please let us know if you
have any concerns over this.
