

Class 1 Week by week

Autumn 2017: Week 11

We have been busy in the outdoor areas as the children work on their challenges - finding doubles for maths and looking for animal groups that start with the same sound (alliteration) in English. We have been making up alliterative names to linking their name to an animal, eg Francis Fox, Alfie Aardvark. You might like to make some up for your family at home.

Alfie

Francis

We have been finding out about the properties of a range of materials. The water tray has been bus place with floating and sinking investigations.

We have also explored how we can change paper by curling and folding to make some paper sculptures.

You can see ideas on Pinterest which we have explored in class.

Next week

The writing focus for next week will be Information writing about the materials used to make our houses strong, weather proof and secure. Please talk with your child about the features your house has - eg, window, roof, gutters - and the materials they are made from. This will help them to be confident in talking about their house and generate ideas for writing.

We will be rehearsing the speaking parts for our play as well as practising Songs 1,2,3 and 4. Please help your child to read their parts in a clear voice

so you can hear them - perhaps from a different room!

Please come to see us if you have any questions about
the play or costumes.
