

## Class 1 Week by week

### Autumn 2017: Week 5

Autumn has started and the children have been looking out for the changing leaves and collecting acorns or conkers - we are hoping to see some squirrels looking for their food. They have been using their collection to help with counting and finding numbers to match.

We have had a very welcome visitor in Class 1 to help us with our science work on Growing Up. Kaera's baby sister came (with Mum!) and we found out about how much we have changed since being born.

As our *All About Me* topic is coming to an end we have taken the opportunity to solve some maths problems by comparing heights and weights using 2- and 3-digit numbers, which Y1 have enthusiastically solved.

### Next week

We are very lucky to have the chance to learn more about a contrasting part of the world - Fiji. It has become a tradition to celebrate Fiji Day in school with activities led by the Fijian parents. Class 1 will be learning to count in Fijian and making some delicious Lei too. (Please let us know of any food allergies.) On Friday afternoon all families are invited to join in with the celebration in the afternoon.

Reception parents may like to meet our Early Years

Governor - Donna Flemming, who will be in school for Fiji Day. Donna is an active governor who enjoys being part of the Class 1 team and would love to meet our new starters' parents for a chat.
