

## Spring 2017 - Week 6

This week in science we have moved on to finding out about animals which live in water and on land – amphibians – like frogs, toads, newts and salamanders. We have watched the Frog Prince story which generated some thoughts about what is fact and what is fiction – they were fascinated to see a frog talking and then turning into a man!

On Tuesday it was Internet Safety Day. We talked in class about the ways we use the internet in school and how important it is to stay safe online. We have found that sometimes by clicking on a link we may be taken to an inappropriate game and we know we then have to tell an adult.

A favourite youtube site for Class 1 is Numberjacks, where the numbers are characters who have adventures. You may like to share this with your child at home and see what ideas they can make up ideas for new stories. Please let us know of any good ones.

Another good website for developing computing skills is called PurpleMash. Mr Metcalfe has set up login for each child and the login details are attached to this newsletter. There are lots of activities to explore and Y1 have some saved animation pictures they will like to share with you.

Finally, Mrs Fawkes has a top tip for an early reading skills site -

This week Class 1 have had some PE sessions with a coach from High School, Ben Scaling. He has been helping us to develop our first skills in Invasion games which has been challenging and enjoyable.

### Next Week

Parents' Evening is on Tuesday and you should have your appointment time. If for any reason you cannot make your appointment please let Mrs Norris or Mrs Veakins know and we will reschedule it at a convenient time.

We break up on Friday for half-term. Class 3 will be leading the Celebration Assembly at 2:30pm and all parents are welcome to attend.
