

Class 1 Week by week

Summer 2017: Week 1

We have been welcomed back to the summer term by some cold and blustery weather! Perhaps not quite time to put away the warm coats just yet.

The new topic in Class 1 is about Growing Plants. We have been thinking about the plants that we grow in our garden in school and planting will be getting going now.

A famous artist painted a well known picture of sunflowers (Van Gogh) and our artists have been using their observational skills to paint some yellow daffodils. This has involved mixing colours to achieve different shades and tones of yellow. We hope you will find time to come in to see their achievements on display next week.

We are still looking out for changes in plants and animals in spring, so don't be surprised if they tell you about the tadpoles which have hatched out from the frogspawn. We will be watching to see if they grow some legs soon.

In Computing we are finding out how we use technology in the world around us. You can help by talking about the way everyday things like streetlights or traffic lights work using computers and sensors.

Next week

Mrs Veakins will be focussing on plants and food which is grown in a much warmer part of the world - Africa - through Handa's Surprise story. The class will be planning and making some tasty and healthy treats!

Just a reminder about sending in PE kits on Mondays,
along with a water bottle for the classroom, please.

As always, please come and see us if you have anything
you would like to share/discuss with us.
