

Class 1 Week by week

Summer 2017: Week 9

This has been a busy week in the junk modelling area.

Y1 have designed a trolley or barrow for Handa to move her fruit around without the animals helping themselves to it. We are now finding suitable components to make a set of working wheels, a handle and a secure body before adding the finishing paint work.

Meanwhile, Reception have been finding out about the different parts of a rocket before choosing boxes and containers to create their own models. We will continue next week to ensure all children have time to complete this.

Armed Forces Day finished off the week, giving us chance to find out what activities parents do in their working lives and wear the gear!

Next week

On Tuesday morning we will be having some very special visitors in Class 1.

Mrs Young and Mrs Murray are bringing our new starters from nursery to have a session in school and get to know their way round.
